# DAVID **LIAO**

Ottawa, ON, Canada · (613) 600-8621 hi@davidliao.ca · davidliao.ca · linkedin.com/in/david-liao

Result-focused software engineer and student with a keen interest in cloud infrastructure and web development. Actively applies knowledge from 4 AWS/Java certifications into internships and personal projects. Looking to make an impact through constant inquisitive learning and community engagement.

# **EXPERIENCE**

## **JUNE 2019 - DECEMBER 2019**

## **DEVELOPER**

# NEWPUSH, REMOTE

- Transformed large amounts of data and served it through web APIs, while providing live documentation using Swagger
- Reduced web API request times by up to 90% by implementing a **data cache** for commonly requested data
- Used Jira in an Agile lifecycle to enhance team focus and coordination

**ENVIRONMENT:** TypeScript, Node.js, Nest.js, Swagger, Angular, Jest, Supertest, Docker, Jenkins, Jira, Bitbucket, Confluence

### **JULY 2018 – AUGUST 2018**

# **WEB PROGRAMMER**

LAUNCHFORT, OTTAWA, ONTARIO

- Developed a cross-platform React application based on a business startup proposal with very flexible requirements
- Discussed interface designs with the client, and enhanced the presentation layer using React Semantic UI and CSS

**ENVIRONMENT:** JavaScript, React, Meteor, MongoDB, React Semantic UI, CSS, Node.js, Express, React-Google-Maps

#### **FEBRUARY 2018 - MAY 2018**

## **SOFTWARE DEVELOPER**

NEW PORTAL CORP, OTTAWA, ONTARIO

- Developed an employee management system to be used by the Human Resources department using Spring MVC and JSP/Servlet
- Built and configured an Ubuntu Linux VM instance on Google Cloud Platform, and deployed the web application onto it

**ENVIRONMENT:** Java, JSP/Servlet, HTML5, CSS, Bootstrap, Spring MVC, Spring Security, Hibernate, MySQL, Google Cloud Platform, Apache Tomcat

# **PROJECTS**

**TEAM OF 2** 

#### **E-COMMERCE BOOKSTORE**

P

#### DEVELOPER + INFRASTRUCTURE ENGINEER

An e-commerce bookstore built on serverless technologies. Developed with a focus on best practices for scalability and security against various types of cyber attacks.

**ENVIRONMENT:** JavaScript, React, Redux, React-Router, AWS API Gateway, Lambda, Aurora Serverless, Cognito, S3, CloudFront, Route53, Batch scripts

**TEAM OF 4** 

# **FLAMINGO TRAVEL PLANNER**

#### **BACKEND LEAD**

A travel planner which suggests travel destinations, tourist attractions, hotels, and restaurants based on the user's budget for money and time. Built as part of cuHacking 2020.

**ENVIRONMENT:** Java, JavaFX, Google Cloud Places APIs

## **CERTIFICATIONS**

AWS CERTIFIED SOLUTIONS ARCHITECT – ASSOCIATE (2020)

**AWS CERTIFIED CLOUD PRACTITIONER** (2019)

ORACLE CERTIFIED JAVA SE 8 – PROFESSIONAL (2019)

ORACLE CERTIFIED JAVA SE 8 – ASSOCIATE (2018)

# INVOLVEMENT

## **COMMUNITY**

- AWS Educate Student Ambassador (first cohort)
- Peer Mentor @ Science Student Success Center
- Teaching Assistant @ Carleton University

#### **PERSONAL**

- AWS Public Sector Summit Ottawa 2019, 2020
- **CUSEC** 2020
- cuHacking 2019, 2020
- BSides CTF 2020

# **EDUCATION**

SEPTEMBER 2018 - APRIL 2023

# **BACHELOR OF COMPUTER SCIENCE, CARLETON UNIVERSITY**

- Dean's List all terms to date
- Espial Scholarship in Computer Science (2019)
- Related coursework in Data Structures & Algorithms, Object-Oriented Design & Programming, Relational & NoSQL databases, and Web Development
- **GPA:** 11.9/12.0
